e Dc -

The diagram shows a horizontal bonding line DC. Two regions, labeled 'Dart', are highlighted in light gray. Each 'Dart' region is bounded by a dashed line and a solid line. The top 'Dart' region is bounded by a dashed line and a solid line. The bottom 'Dart' region is bounded by a dashed line and a solid line. The text 'Dart' is written vertically within each region.

The diagram shows a horizontal bonding line DC. Two regions, labeled 'Dart', are highlighted in light gray. Each 'Dart' region is bounded by a dashed line that starts from a vertical line on the left and tapers to a point on the right. The top 'Dart' is located above the bonding line, and the bottom 'Dart' is located below it. The bonding line itself is a solid black line.
